Summary

Software Engineer with expertise in Python, MySQL, HTML, CSS, JavaScript, and Power BI. Experienced in developing responsive web interfaces and interactive dashboards, with a strong focus on performance optimization and user-friendly design. Currently enhancing front-end skills through an internship, with hands-on experience in projects like banking interfaces, e-commerce dashboards, and management systems.

Technical Skills

Languages and DataBases: Python, NumPy, MySQL,

Visualization Tools: Power BI

Web Development Technologies : HTML, CSS, JavaScript

Other Skills: Team Leader, Data analysis

Projects

Banking Dashboard

August 2024 –September 2024

- Designed a responsive banking interface with a user-friendly layout, showcasing current balance, deposit, and withdrawal sections.
- Developed interactive UI components using HTML, CSS, and JavaScript, enabling users to input deposit and withdrawal amounts.
- Implemented dynamic balance updates using JavaScript, ensuring real-time balance changes based on user input.
- Demonstrated basic banking functionality, including balance display, deposit, and withdrawal processes, highlighting understanding of banking principles.

E - Commerce Sales Dashboard

February 2024 – February 2024

- Developed an E-Commerce sales dashboard in Power BI to visualize sales performance metrics.
- Implemented interactive features to analyze product trends
- Optimized dashboard performance through efficient data modeling and real-time data integration.

Training and Placement Management System

February 2021 – May 2021

- Designed and developed a comprehensive Training and Placement Management System using HTML, CSS, JavaScript, Python, and Django framework to streamline training and placement processes.
- Created a robust database-driven application using MySQL to efficiently manage training details, placement activities, student CGPA scores, and technical skills data, enhancing organizational efficiency and decision-making.
- Utilized Python and Django framework to build a scalable and secure web application for training and placement management, ensuring seamless data management and analysis.

Front-End development Intern At CareerPhi

August 2024 - Present

- Gained hands-on experience in building responsive and interactive web applications using HTML, CSS and JavaScript.
- Developed skills in creating visually appealing and user – friendly interfaces, enhancing my front – end development expertise.
